

Discontinued  
The model has been discontinued.

Specification

Sensor

|                                         |                                   |
|-----------------------------------------|-----------------------------------|
| Sensor type                             | CMOS Color                        |
| Shutter                                 | Rolling shutter                   |
| Sensor characteristic                   | Linear                            |
| Pixel Class                             | 8 MP                              |
| Resolution                              | 8.41 Mpix                         |
| Resolution (h x v)                      | 3864 x 2176 Pixel                 |
| Aspect ratio                            | 16:9                              |
| ADC                                     | 12 bit                            |
| Color depth (camera)                    | 12 bit                            |
| Optical sensor class                    | 1/2.8"                            |
| Optical Size                            | 5.603 mm x 3.155 mm               |
| Optical sensor diagonal                 | 6.43 mm 1/2.8"                    |
| Pixel size                              | 1.45 µm                           |
| CRA (Chief Ray Angle)                   | 0 °                               |
| Manufacturer                            | Sony                              |
| Sensor Model                            | IMX415-AAQR-C                     |
| Gain (master/RGB)                       | 31.6x/-                           |
| AOI horizontal                          | same frame rate                   |
| AOI vertical                            | increased frame rate              |
| AOI image width / step width            | 24 / 24                           |
| AOI image height / step width           | 40 / 4                            |
| AOI position grid (horizontal/vertical) | 2 / 4                             |
| Binning horizontal                      | increased frame rate              |
| Binning vertical                        | increased frame rate              |
| Binning method                          | Horizontal: mean / Vertical: mean |
| Binning factor                          | 2x2_constrain                     |
| Decimation (subsampling) horizontal     | -                                 |
| Decimation (subsampling) vertical       | -                                 |
| Decimation (subsampling) method         | -                                 |

### Model

|                                   |                    |
|-----------------------------------|--------------------|
| Frame rate freerun mode           | 25 fps             |
| Frame rate trigger (continuous)   | 25 fps             |
| Frame rate trigger (maximum)      | 25 fps             |
| Exposure time (minimum - maximum) | 0.032 ms - 1900 ms |
| Power consumption                 | 0.5 W - 1 W        |
| Image memory                      | -                  |

### Ambient conditions

The temperature values given below refer to the outer device temperature of the camera housing.

|                                             |                                 |
|---------------------------------------------|---------------------------------|
| Allowed device temperature during operation | 0 °C - 55 °C / 32 °F - 131 °F   |
| Allowed ambient temperature during storage  | -20 °C - 60 °C / -4 °F - 140 °F |
| Humidity (relative, non-condensing)         | 20 % - 80 %                     |

### Connectors

|                     |                            |
|---------------------|----------------------------|
| Interface connector | USB 3.0 micro-B, screwable |
| I/O connector       | 8-pin Wuerth connector     |
| Power supply        | USB cable                  |

### Pin assignment I/O connector

|   |                                            |
|---|--------------------------------------------|
| 1 | Voltage output 3.3 V                       |
| 2 | Ground (GND)                               |
| 3 | Flash output without optocoupler - Line 1  |
| 4 | Trigger input without optocoupler - Line 0 |
| 5 | General Purpose I/O (GPIO) 1 - Line 2      |
| 6 | General Purpose I/O (GPIO) 2 - Line 3      |
| 7 | Ground (GND)                               |
| 8 | USB Power: 5 V, max. 400 mA                |

### Design

|                  |                             |
|------------------|-----------------------------|
| Lens Mount       | C-Mount                     |
| IP code          | IP30                        |
| Dimensions H/W/L | 29.0 mm x 29.0 mm x 17.0 mm |
| Mass             | 61 g                        |
| Housing material | Zinc nickel-plated          |

### Features

List of on-camera image pre-processing features.

All features of the table are available via our IDS peak software for image pre-processing on the host computer (sensor model dependent).

|                   |                             |   |
|-------------------|-----------------------------|---|
| Image Acquisition | Freerun                     | ✓ |
|                   | Software trigger            | ✓ |
|                   | Hardware trigger            | ✓ |
|                   | Trigger controlled exposure | - |
|                   | Denoiser                    | - |
|                   | Long exposure               | - |
|                   | Line scan                   | - |
|                   | Global start                | - |
| Flashing          | Flashing                    | - |
|                   | PWM flashing                | - |
