

# Many thanks and happy holidays!

## Season's Greetings from IDS

Thank you for your trust, your loyalty and your patience in this year, which was once again very special for all of us and also challenging due to the procurement situation. The circumstances have even inspired our unconditional will to create something new, and so in the VISION year we were not only able to take a giant step forward with the further development of IDS NXT ocean, but also with our heartfelt topic of "AI for everyone". With the [online marketplace visionpier](#), we have also been offering a wide range of target groups the opportunity to easily establish machine vision solutions with or without AI into their business.

With our IDS [Vision Channel](#), we have made more than a virtue of necessity in the lockdown, so that you can now access our full expert knowledge **on-demand** in its media library.

Our new products this year are also meeting with great demand, such as the [uEye XCP](#), the smallest industrial camera with housing and C-mount, or the cost-effective [Ensenso S](#) 3D camera.

Last but not least, it is thanks to you, our partners and customers, that we are able to close the year on a positive note.

**We wish you and your families happy holidays and a healthy start into a good year 2022!**

*The IDS headquarters in Obersulm will be closed from 24.12.2021 to 07.01.2022 inclusive. During this time, neither sales and dispatch, nor delivery and receipt of goods will be possible. The last goods acceptance will take place on 23.12.2021 at 12 noon. From Monday, 10 January, we will be there for you again in the customary scope.*
