USB2 uEye LE with s-mount

USB3 uEye LE with s-mount

Reasons and description of the product adaption

IDS optimized the sealing of USB2 uEye LE and USB3 uEye LE cameras with s-mount lens holder. The sealing is located between filter glass and sensor. The sealing material is UL compliant. The benefit is an improved protection against dust. The mechanical mount of the filter glass is more robust in case of vibration. The dimension and mechanical data for the camera and lens mount stays the same.

Recommended action for customers

No action required by customer if the product is not certified in a medical product. If this should be the case, please contact our sales for an evaluation sample.

Date of change

This product change takes place from 01.08.2020 in our production line.
