Title: Discontinuation of certain uEye cameras with CMV4000 sensors

Affected Product:	IDS uEye cameras (detailed list of models in document) <ul style="list-style-type: none">• UI-337xCP (USB3)• UI-337xSE (USB3)• UI-537xCP (GigE)• GV-537xCP (GigE)
Document Version:	1.0
Release date:	March 08 th 2022

Reasons and Description of the Product Discontinuation

The supplier of the imaging sensors built into the affected cameras has decided to strongly increase prices for the imaging sensor CMV4000-3E5C1LP (colour), CMV4000-3E5M1LP (monochrome) and CMV4000-3E12M1LP (NIR). IDS therefore decided to announce the discontinuation of the affected cameras below. IDS' goal is to offer up to date sensors with a good price/performance ratio.

Recommended action for customers

IDS recommends its customers to check demands and place orders until the last time buy date. For any question regarding last time orders or successor models, please contact our sales team.
